

## A Strategic Discussion:

### Pledge for Unity of the Roma in the Republic of Macedonia

*Hotel Continental, Skopje, February 21, 2018*

The goal of the strategic discussion and the mutual dialogue of the topic is in fact a discussion about the investment and the promise for Unity and Commitment about the content of the Declaration on the strategic goals and interests of the Roma community in the Republic of Macedonia.

*We are not the only ones here. Expanding the scope for all who want, can and are willing to contribute to the realization of our strategic goals. A process that lasts and unites. Discussion through which learned lessons are learned and use the experiences and resources on which we can lean. It is not ideal until we are unique in realizing the goals we are discussing. The context is dynamic and changeable, while publicly-targeted goals reveal positions within a given time interval of the involved parties that can influence and change the context in which we act.*

Our collective action and understanding of our strategic goals can cause the change that we want to see. The event aims to offer an opportunity to discuss important issues that are of no interest to us.

You can register your participation and group work on the **following link** <https://goo.gl/H8WX2A>. The travel costs for participation in the event will be covered in the amount of the return bus ticket.
